

# Server Error in '/' Application.

## Non-static method requires a target.

**Description:** An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

**Exception Details:** System.Reflection.TargetException: Non-static method requires a target.

### Source Error:

An unhandled exception was generated during the execution of the current web request. Information regarding the origin and location of the exception can be identified using the exception stack trace below.

### Stack Trace:
